

Adventure Bakery, LLC		Revision Num.	New
Form Title	Depositor Cleaning & Pre-Use Check Log (Beldos 275)	Filled By	
Form No.	FRM-911		

Date		Product run		Allergen changeover	☐
------	--	-------------	--	---------------------	--------------------------

Cleaning

Step	Done	Notes
Machine and air supply off; air line disconnected and pressure bled		
Depositor fully disassembled — nozzle, hopper, rotation cylinder, hopper block, product cylinder, piston		
All seals / O-rings removed from every part		
Product-contact parts and seals washed in the sink — detergent, rinse, sanitizer at label strength, drying rack		
Machine body and air cylinders wiped only — not submerged		
Every seal inspected for wear; worn or damaged seals replaced		
Reassembled — seals greased with food-approved grease, clamps tight, correct nozzle fitted		
Allergen changeover: every food contact surface checked under good light (changeover only)		

Sanitizer strength (test strip)	_____ ppm	Cleaned by	
---------------------------------	-----------	------------	--

Signature statement: "I cleaned the depositor as described in SOP-903."

Check Before Next Run

All parts clean and dry; seals inspected and worn ones replaced (none torn or missing a piece); clamps tight; correct nozzle fitted; nothing left on the machine	Pass ☐ Fail ☐
--	---

Anything wrong, and what was done about it

Checked and released by		Date	
-------------------------	--	------	--

Signature statement: "I checked the depositor after cleaning and release it for production." (Supervisor / admin sign-off)
